Pollak Heavy Duty Products

The Problem

Unsealed connectors, loose parts, tools required, and additional labor results in **timely and costly assembly.**

Plastic sockets are manufactured from inexpensive nylon plastic which will **crack or break** in cold climates

Metal sockets are manufactured from inexpensive steel which **rusts and corrodes** when exposed to adverse weather conditions.

Socket lids are **not sealed** and have a **weak metal spring** that easily rusts or breaks.

Old terminal design requires **timely disassembly** and assembly of terminal plates and screws. Cable leads must be stripped and tightened manually.

The Solution

The new **11-893** Socket is **easy to install** with a push and click assembly.

Pollak sockets are manufactured from high-impact nylon that **solves corrosion problems** and eliminates rusting.

Socket lid features a heavy-duty **stainless steel spring** and **rubber gasket.** wiring diagram on cover to facilitate installation.

Terminal pins are tin plated copper alloy providing higher conductivity and less resistance. Terminal pins are sealed at back of socket with **silicone sealant to prevent moisture** from making contact with mating connector.

Fits Ford/GM styles and mounted with new universal **12-711U** bracket will fit other OEM applications. **New design is the industry standard.**

The Kit

The **11-898** kit includes: 11-893 Socket, 12-711U Bracket, Interlocking Connector and Harness assembly with 1/2" convoluted tubing and 7-wire leads color-coded to RVI standards.

Interlocking connector **seals out moisture eliminates loose wiring** and forms weather-tight, non-corrosive assembly.

For new installations or replacement of damaged aftermarket or OEM sockets and wiring harness.

11-898 Kit, (4 ft. Harness shown below)

RV OEM Style Sockets and Wiring Assemblies

Socket, Bracket, Interlocking Connector, Harness Assembly, and Wire Leads color coded to RVI standards.

Interlocking connector that seals out moisture, eliminates loose wiring, and forms weather-tight, non-corrosive assembly.

Includes mounting hardware and installation instructions.

7-way connectors and sets.

Part No.	Description	Leads	Harness Length	Voltage Rating	Current Rating
11-893	RV OEM Replacement Socket			12 Volts	30 Amp
11-896	7-Way Power Outlet Adapter				
11-898	Kit - Socket, Cable, Bracket	7	4 foot	12 Volts	30 Amp
11-932	T-Connector				
11-993	Rectangular to Round Harness Adapter				

RV OEM Replacement Socket, JP-11-893

Sealed RV Socket is designed to be dependable in one the harshest mounting environments for an electrical device. An exposed external mounting under the rear bumper of a sport utility or pickup truck. This connector design continues to earn the distinction of becoming the industry standard.

High-impact nylon that solves corrosion problems and eliminates rusting when mated with special interlocking sealed connectors.

Socket lid features stainless spring and runner gasket to guarantee against moisture intrusion when closed. Socket lid also designed with slot to prevent sand and dirt from impairing closure and lid has wiring diagram on cover to facilitate installation.

Socket lid also has a drain slot and is angled down for drainage.

Tin plated copper alloy terminal pins provide higher conductivity and less resistance. Sealed at the back of the socket with silicone sealant to prevent moisture from making contact with mating connector.

Fits Ford style and new universal Pollak 12-711U mounting bracket for other OEM applications.

Kit (Socket, Cable, & Bracket), JP-11-898

Includes **11-893 Socket**, **12-711U Bracket**, **Interlocking Connector** and **4 ft. Harness** with 1/2" convoluted tubing, and 7-wire leads.

Interlocking connector seals out moisture, eliminates loose wiring and forms weather-tight, non-corrosive assembly.

For new installations or replacement of damaged aftermarket OEM sockets and wiring harnesses.

Includes mounting hardware and installation instructions.

T-Connector, JP-11-932P

Adaptor for 5th Wheel and Bumper Mount Socket.

Quicly and easily installs in a second RV Socket.

Plug & Play without splicing into OEM Harness.

Fits GM and Ford Trucks and SUV's.
Fits Chrysler Trucks and SUV's
when used with **JP11-933** Adaptor.

Mates with Pollak Socket **11-893**.

Rectangular-To-Round Adapter, JP-11-993

Fits OEM Harnesses.

Mates with Pollak Socket **11-893** and
Pollak T-Connector **11-932P**

4 Ft. Wiring Harness, JP-11-998

For Pollak replacement 7-Pole RV Socket. Hard wires into vehicle wiring system.

Wiring Specifications:

Color	Circuit	Wire Gauge
Red	Left Turn / Stop	14 Gauge
White	Ground	10 Gauge
Blue	Electric Brakes	12 Gauge
Green	Right Turn / Stop	14 Gauge
Black	Battery	10 Gauge
Brown	Running Lamps	14 Gauge
Yellow	Backup Lamps	14 Gauge

Complete your installation with these great products

Molded Trailer Connector & Cable

7-Way (**BA-5067001**) and 6-Way (**BA-5061106**) trailer connectors with 6 foot of molded cable.

7-Way features:

- 10 Gauge Black & White
- 12 Gauge Blue
- 14 Gauge Brown, Green, Red, & Yellow

6-Way features:

- 14 Gauge Blue, Brown, Green, Red, Yellow, & White

Electrical Junction Box, VEL-055060

Includes all fasteners and grommets.
Measures 6-9/16" x 3-1/4".
